

collaboration | agility | flexibility | mobility

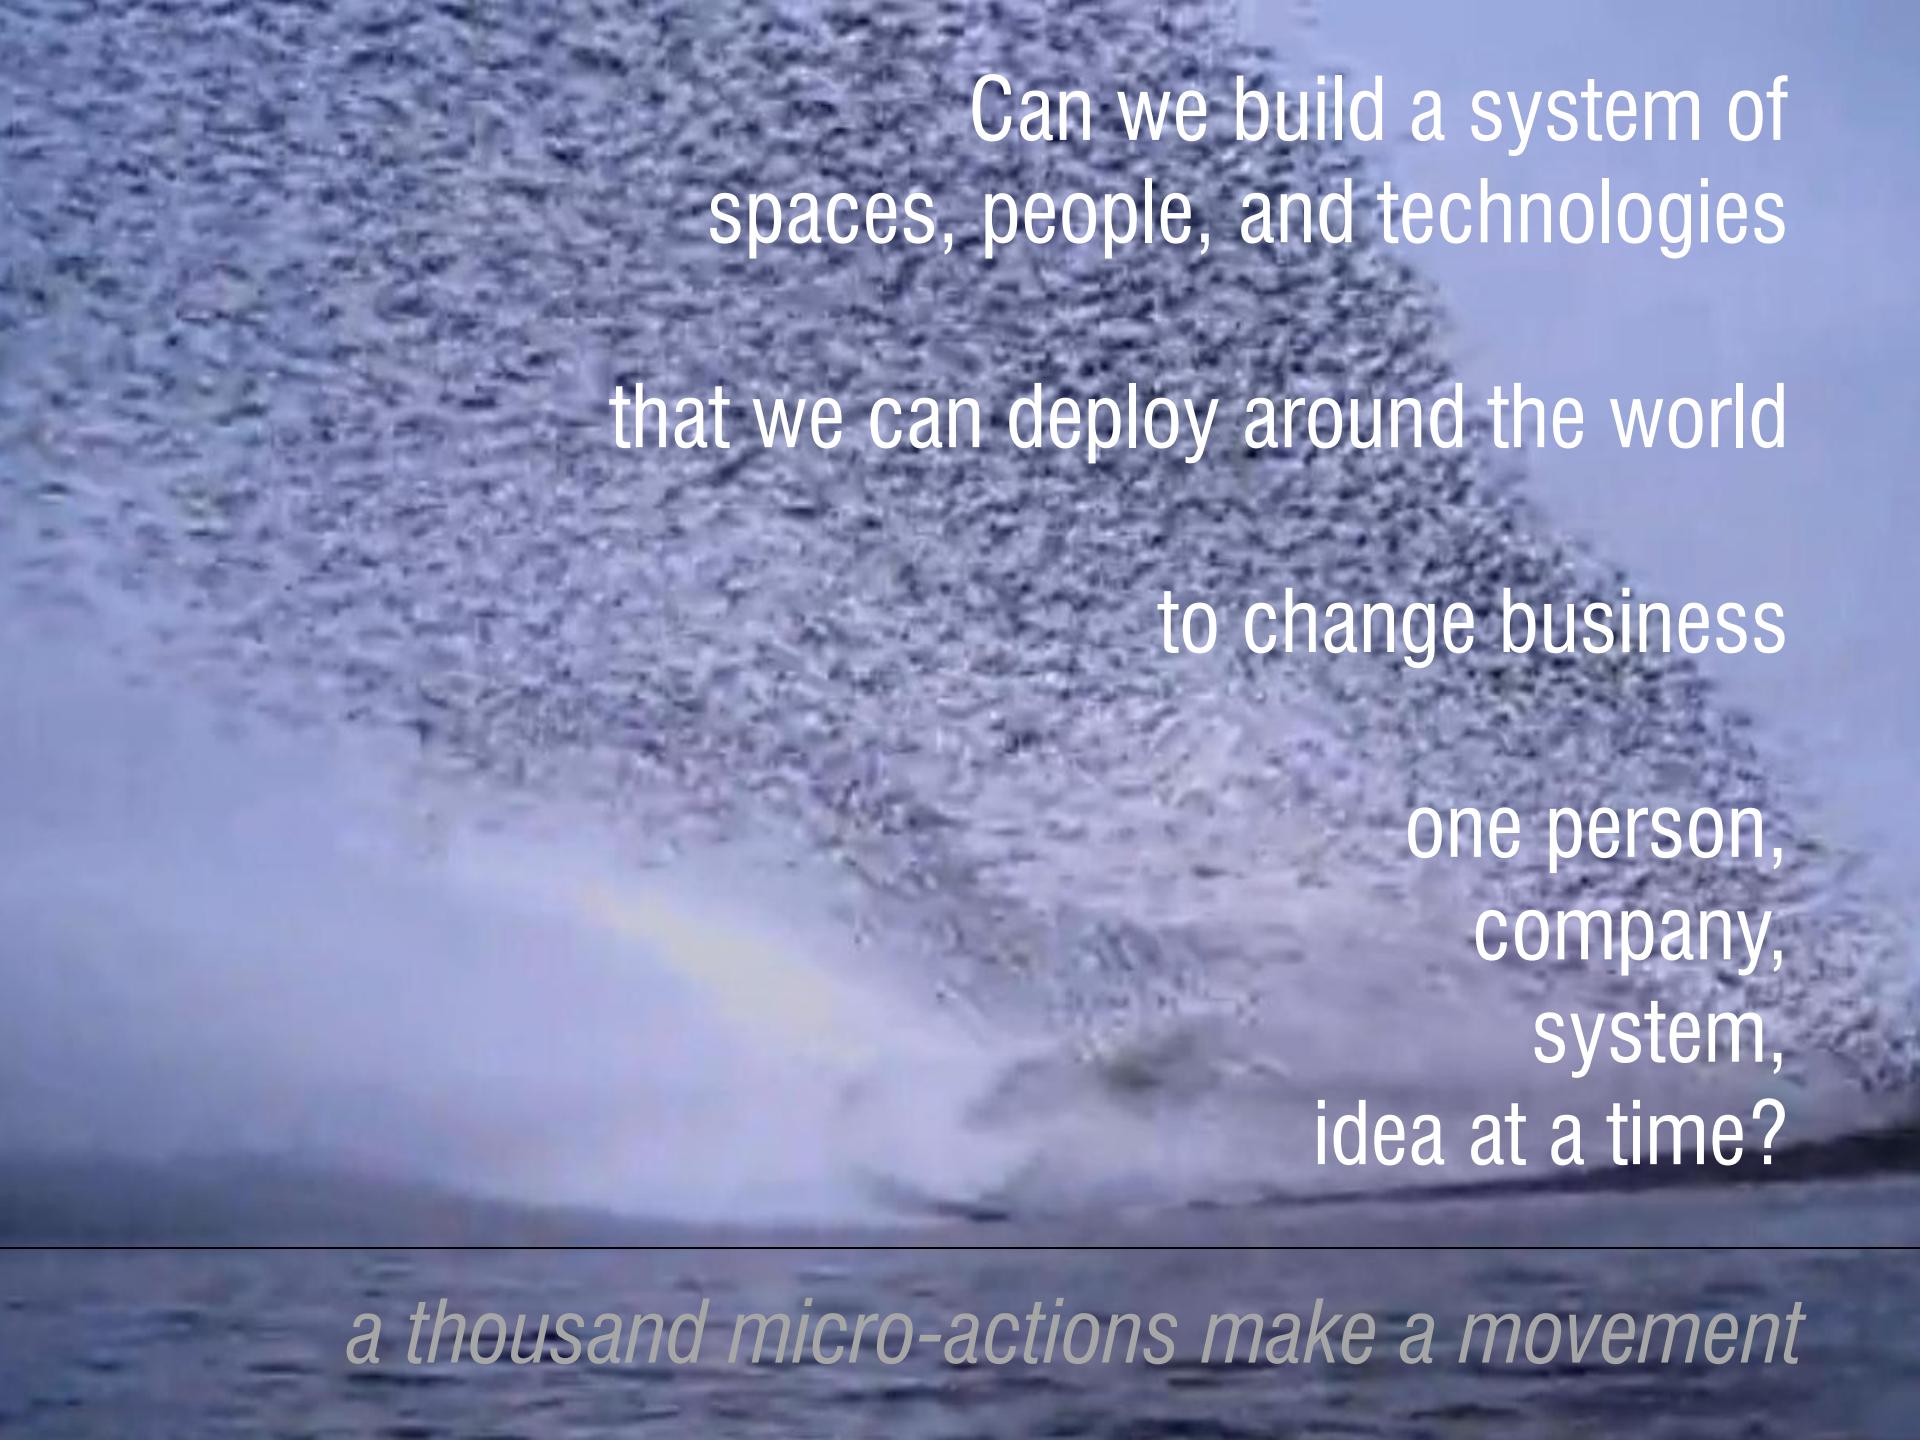

evolving collaboration over time

A wide-angle photograph capturing a massive flock of birds in flight against a clear blue sky. The birds are densely packed, filling the frame from the top left towards the bottom right. They appear as small, dark specks against the bright sky, creating a sense of immense movement and collective action.

a thousand micro-actions make a movement

Can we build a system of
spaces, people, and technologies

that we can deploy around the world

to change business

one person,
company,
system,
idea at a time?

a thousand micro-actions make a movement

Lack of communication, poor collaboration and bad management are some of the biggest problems in business.

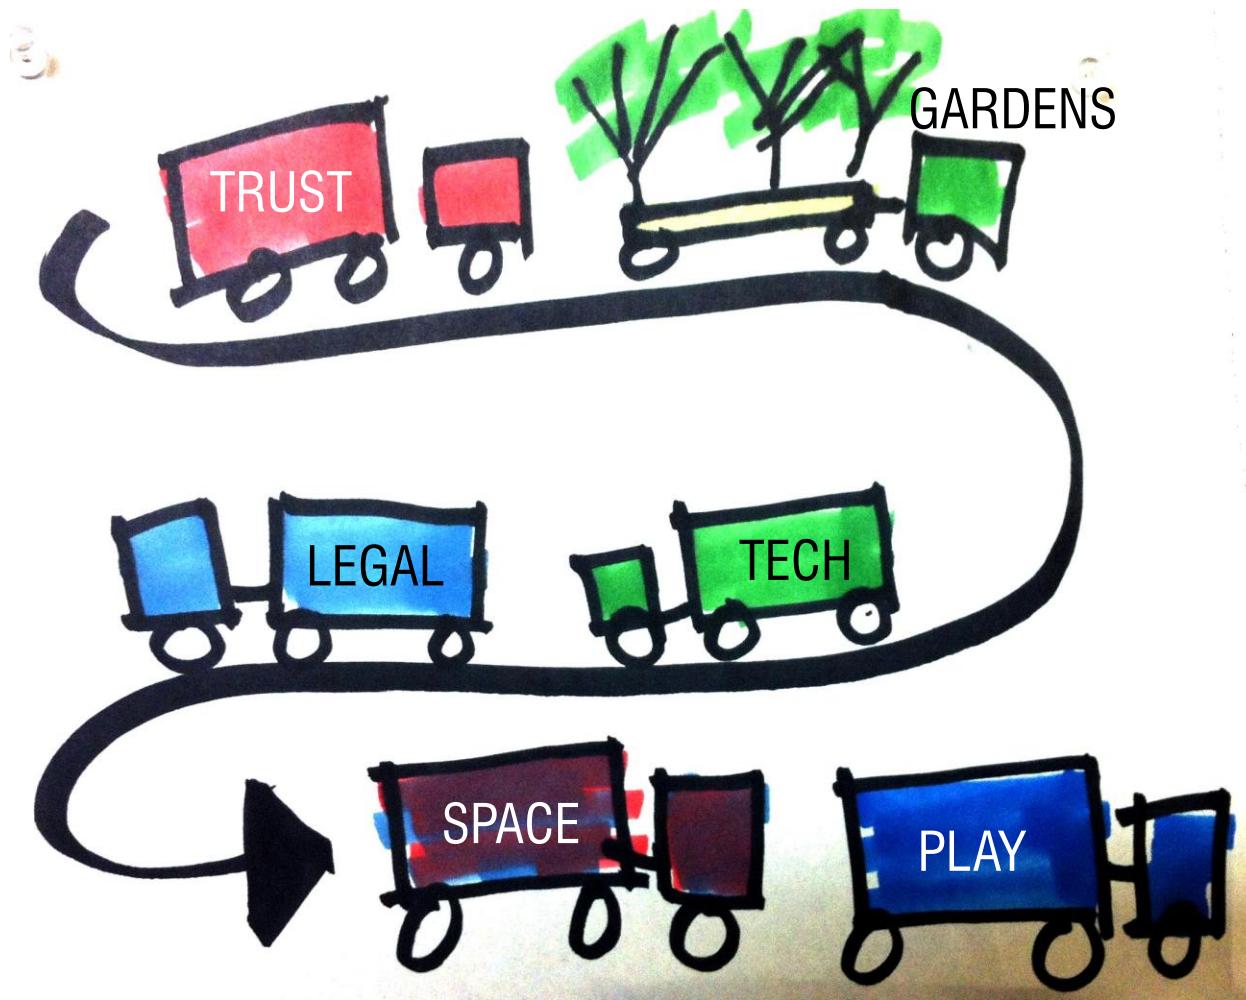

we have to give people + businesses

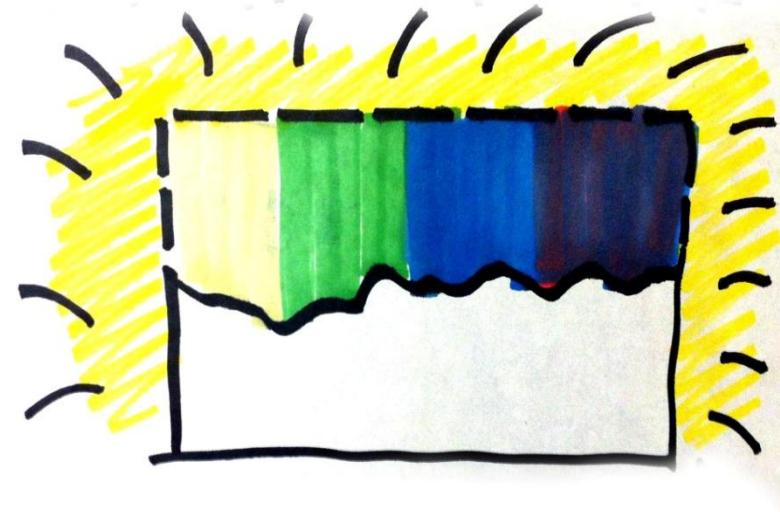

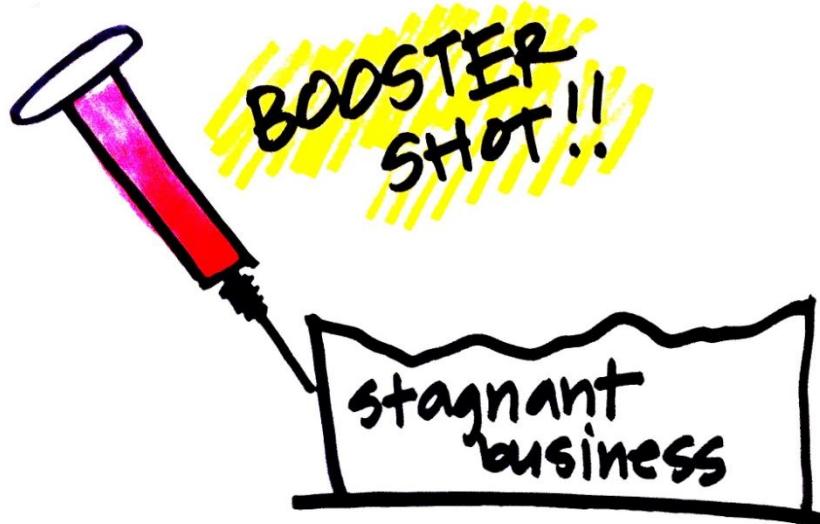

the skills and tools to collaborate

what does your business need next?

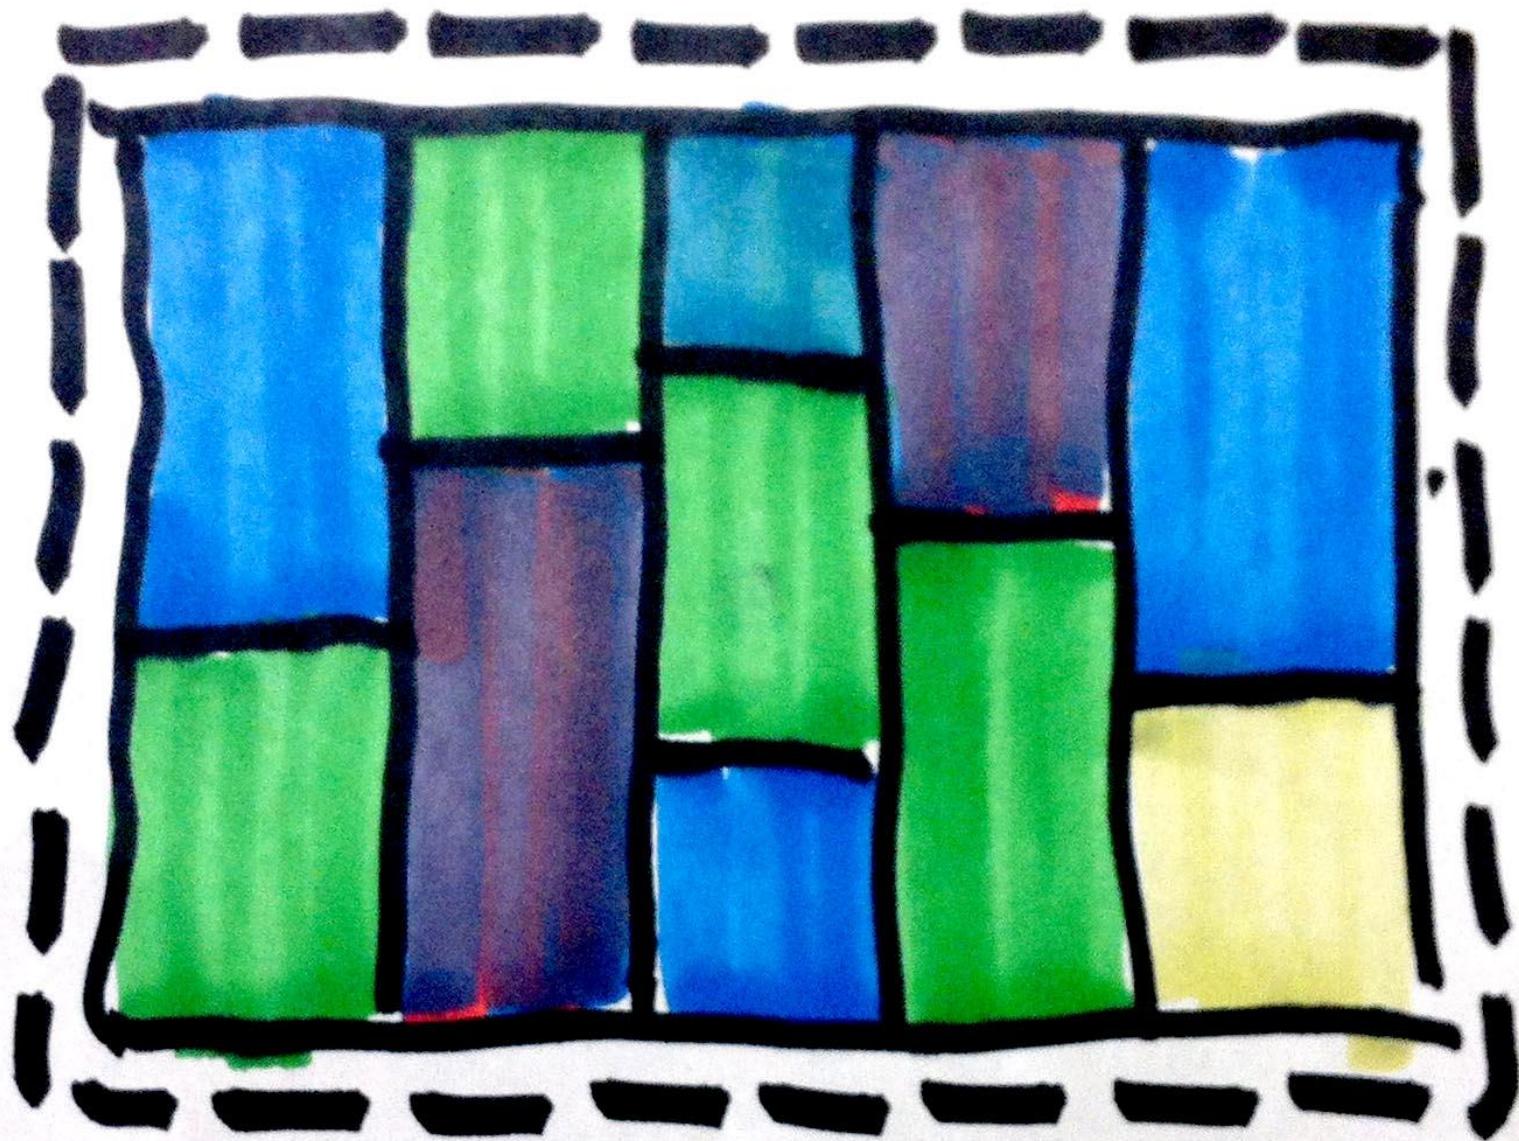

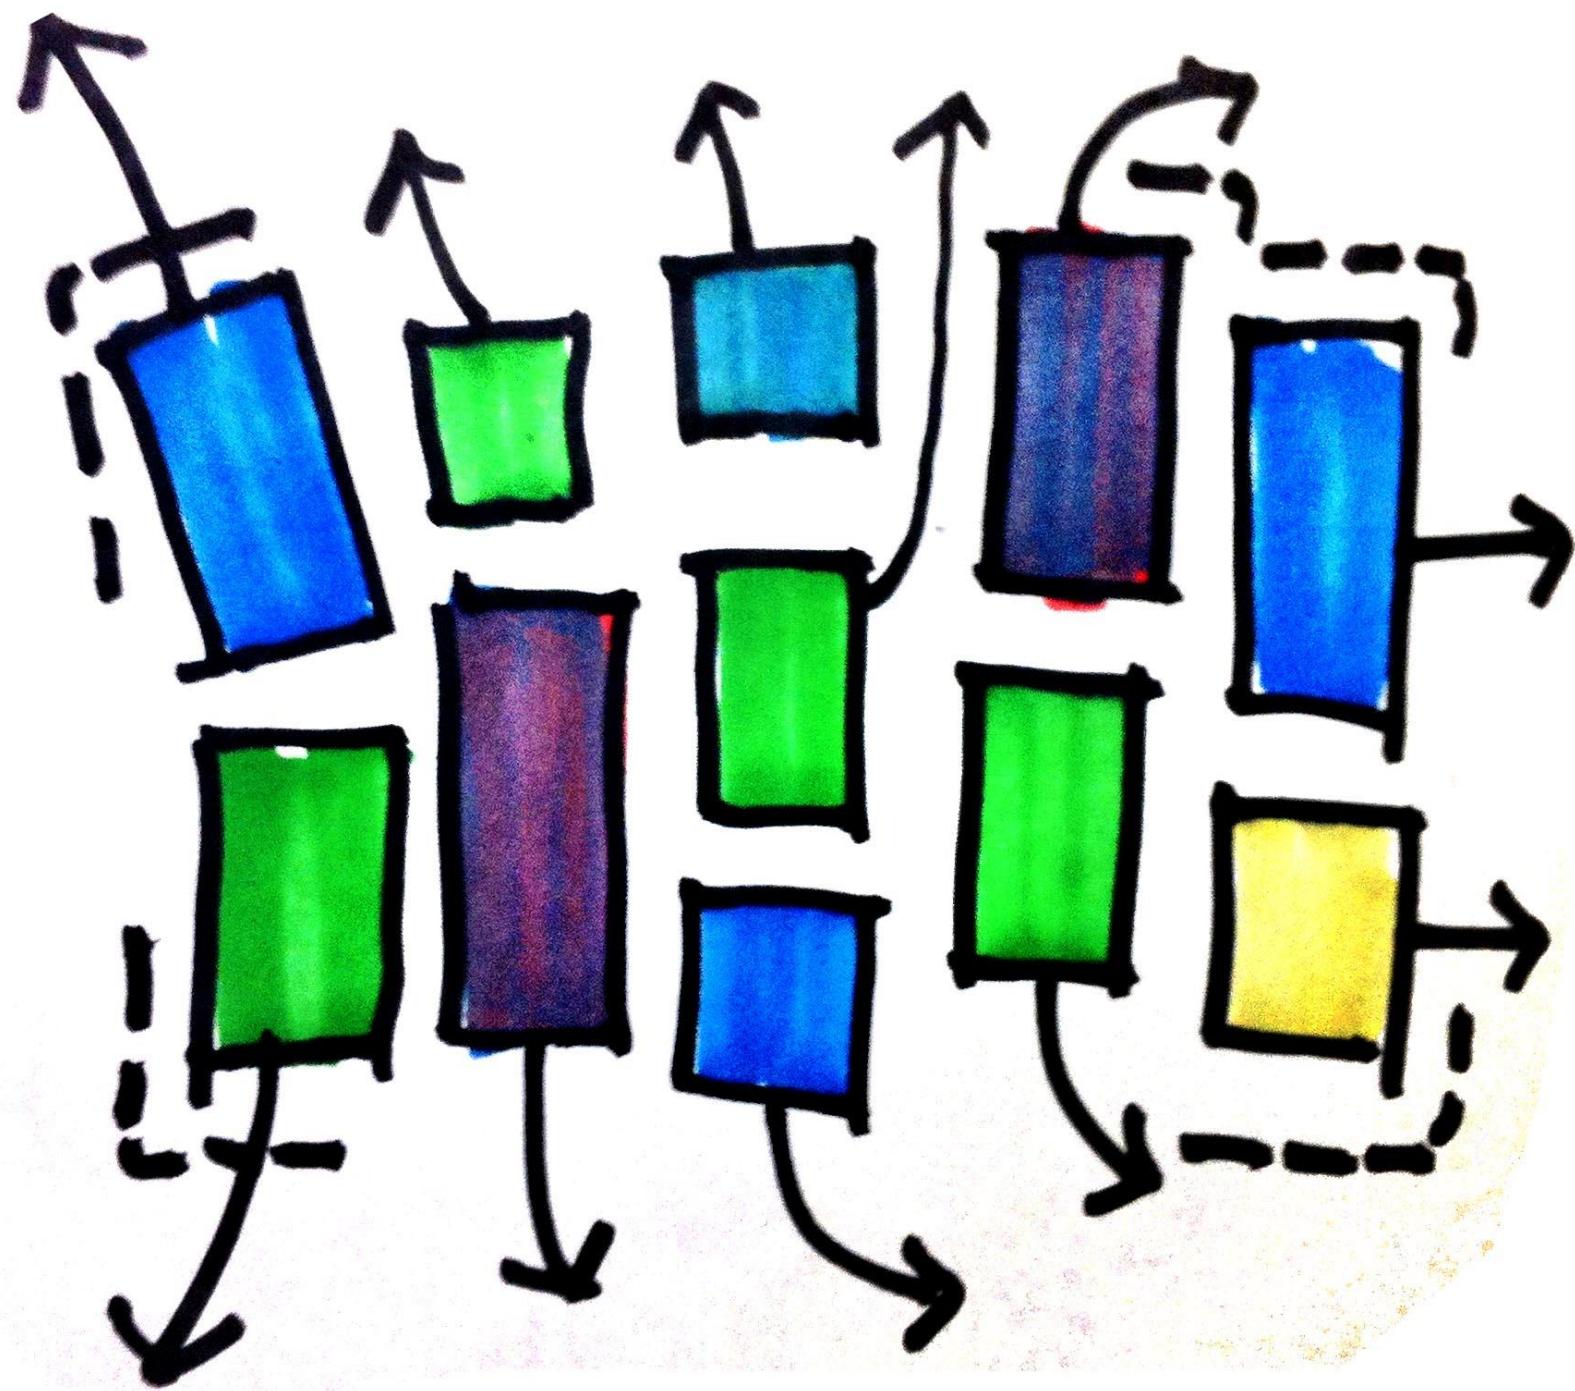

“a startup bus ... for existing businesses”

- Access to Open Source Material

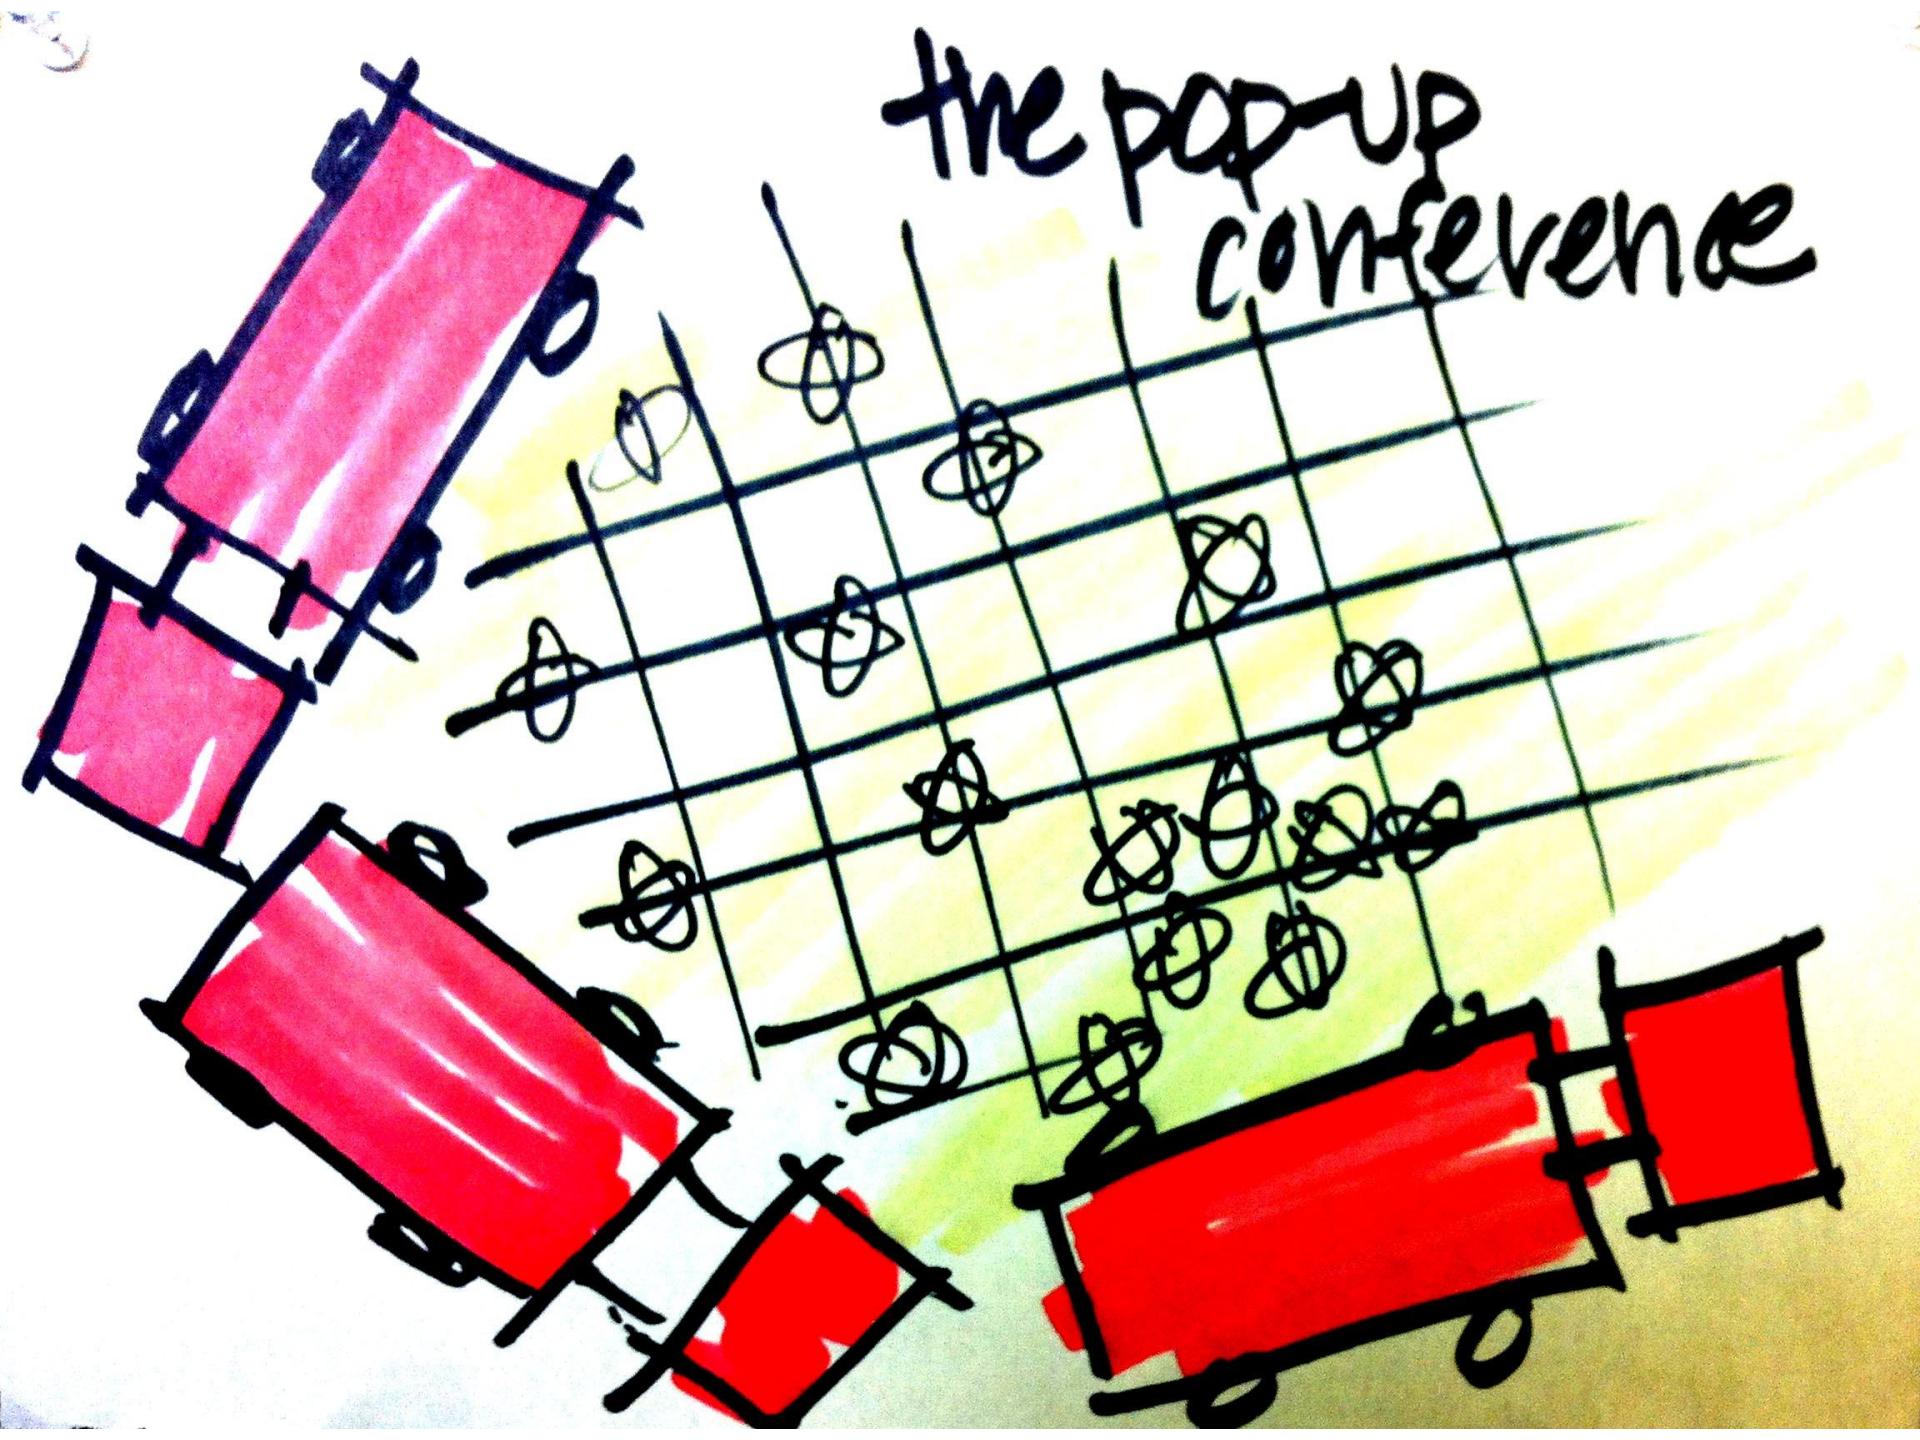

company or organization

the mobile garden...
for people who don't have access to native.

the pop-up conference

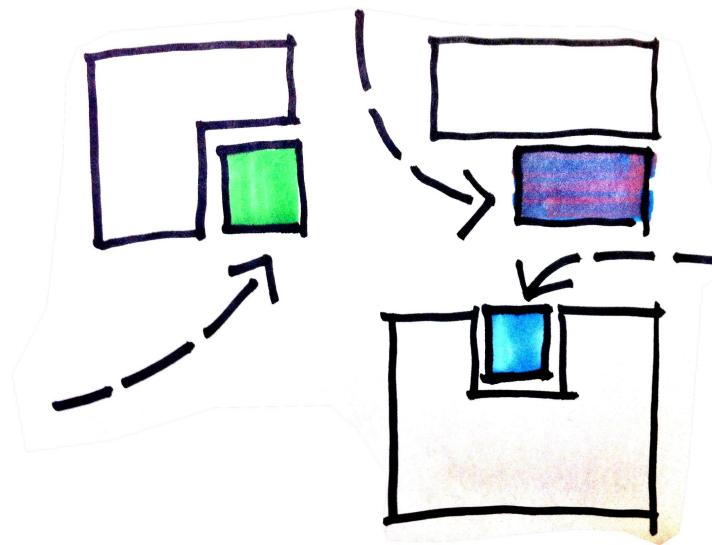

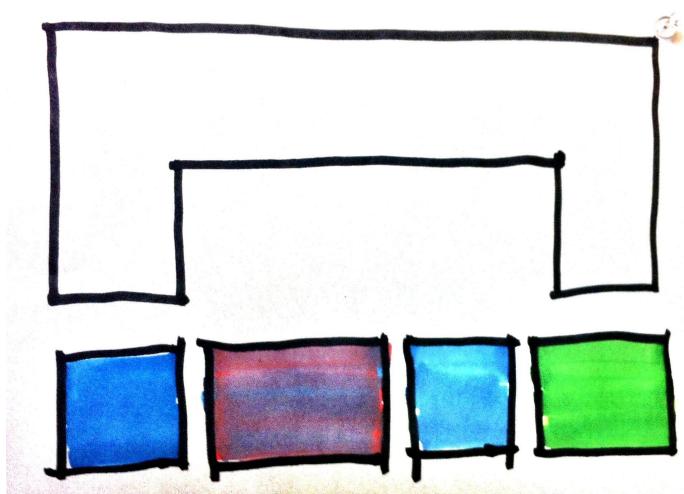

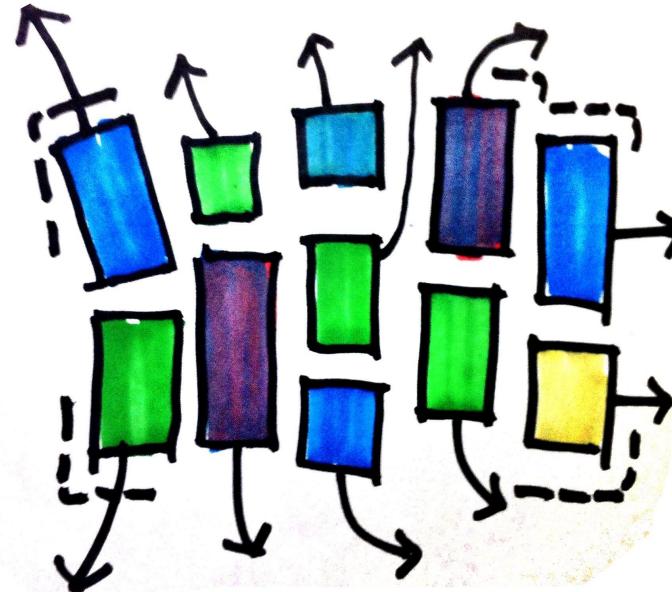

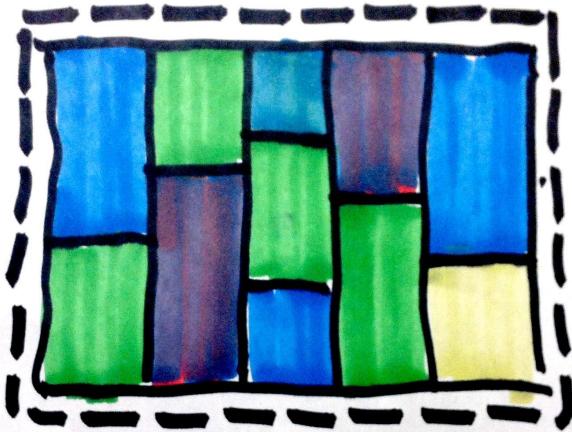

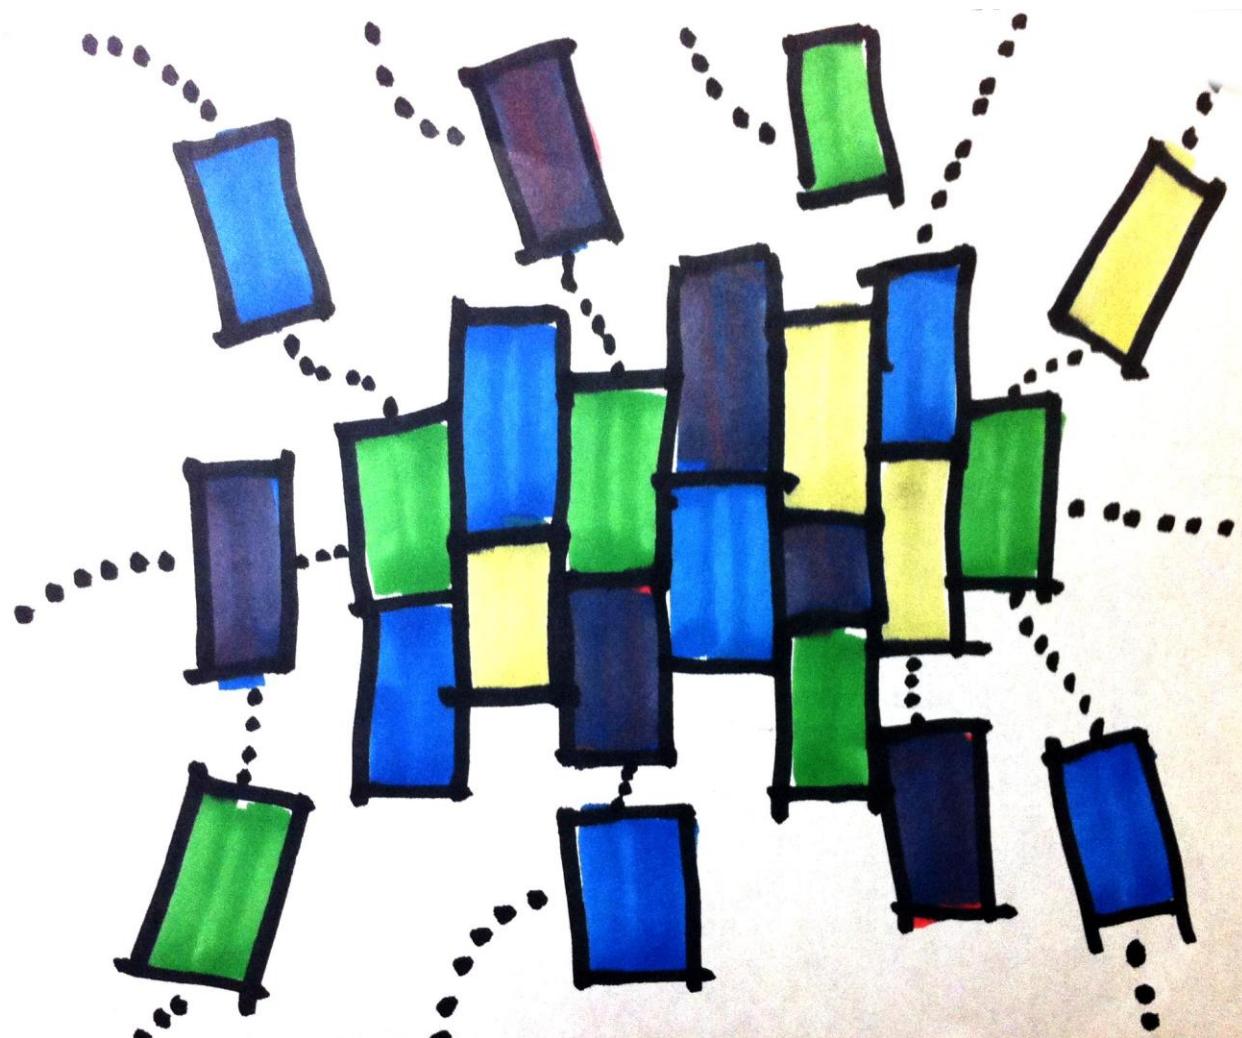

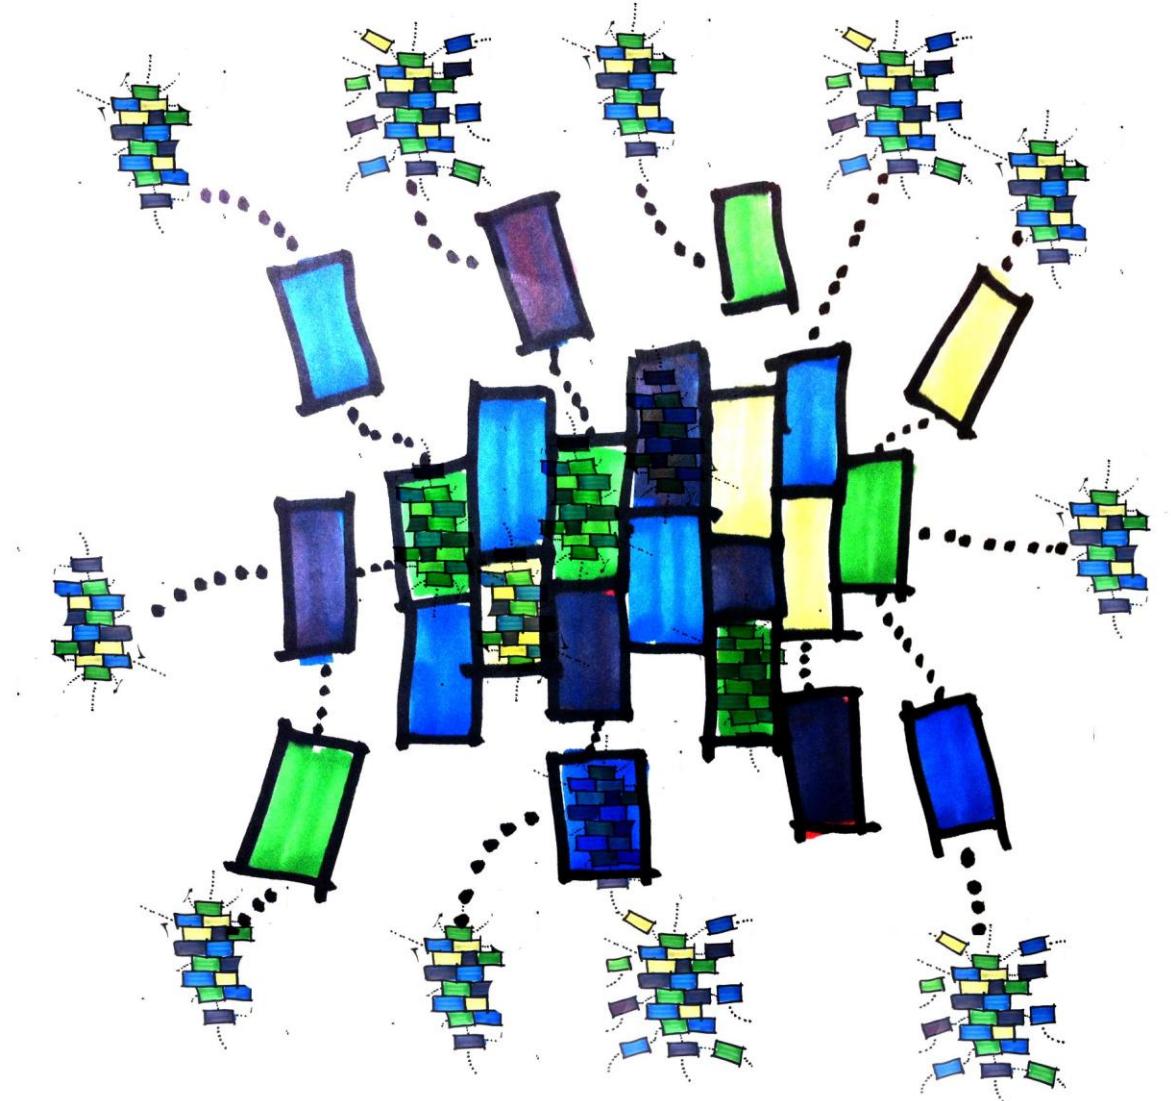

when the people, units + ideas return:

what can we learn?

can we build a living system that grows ...

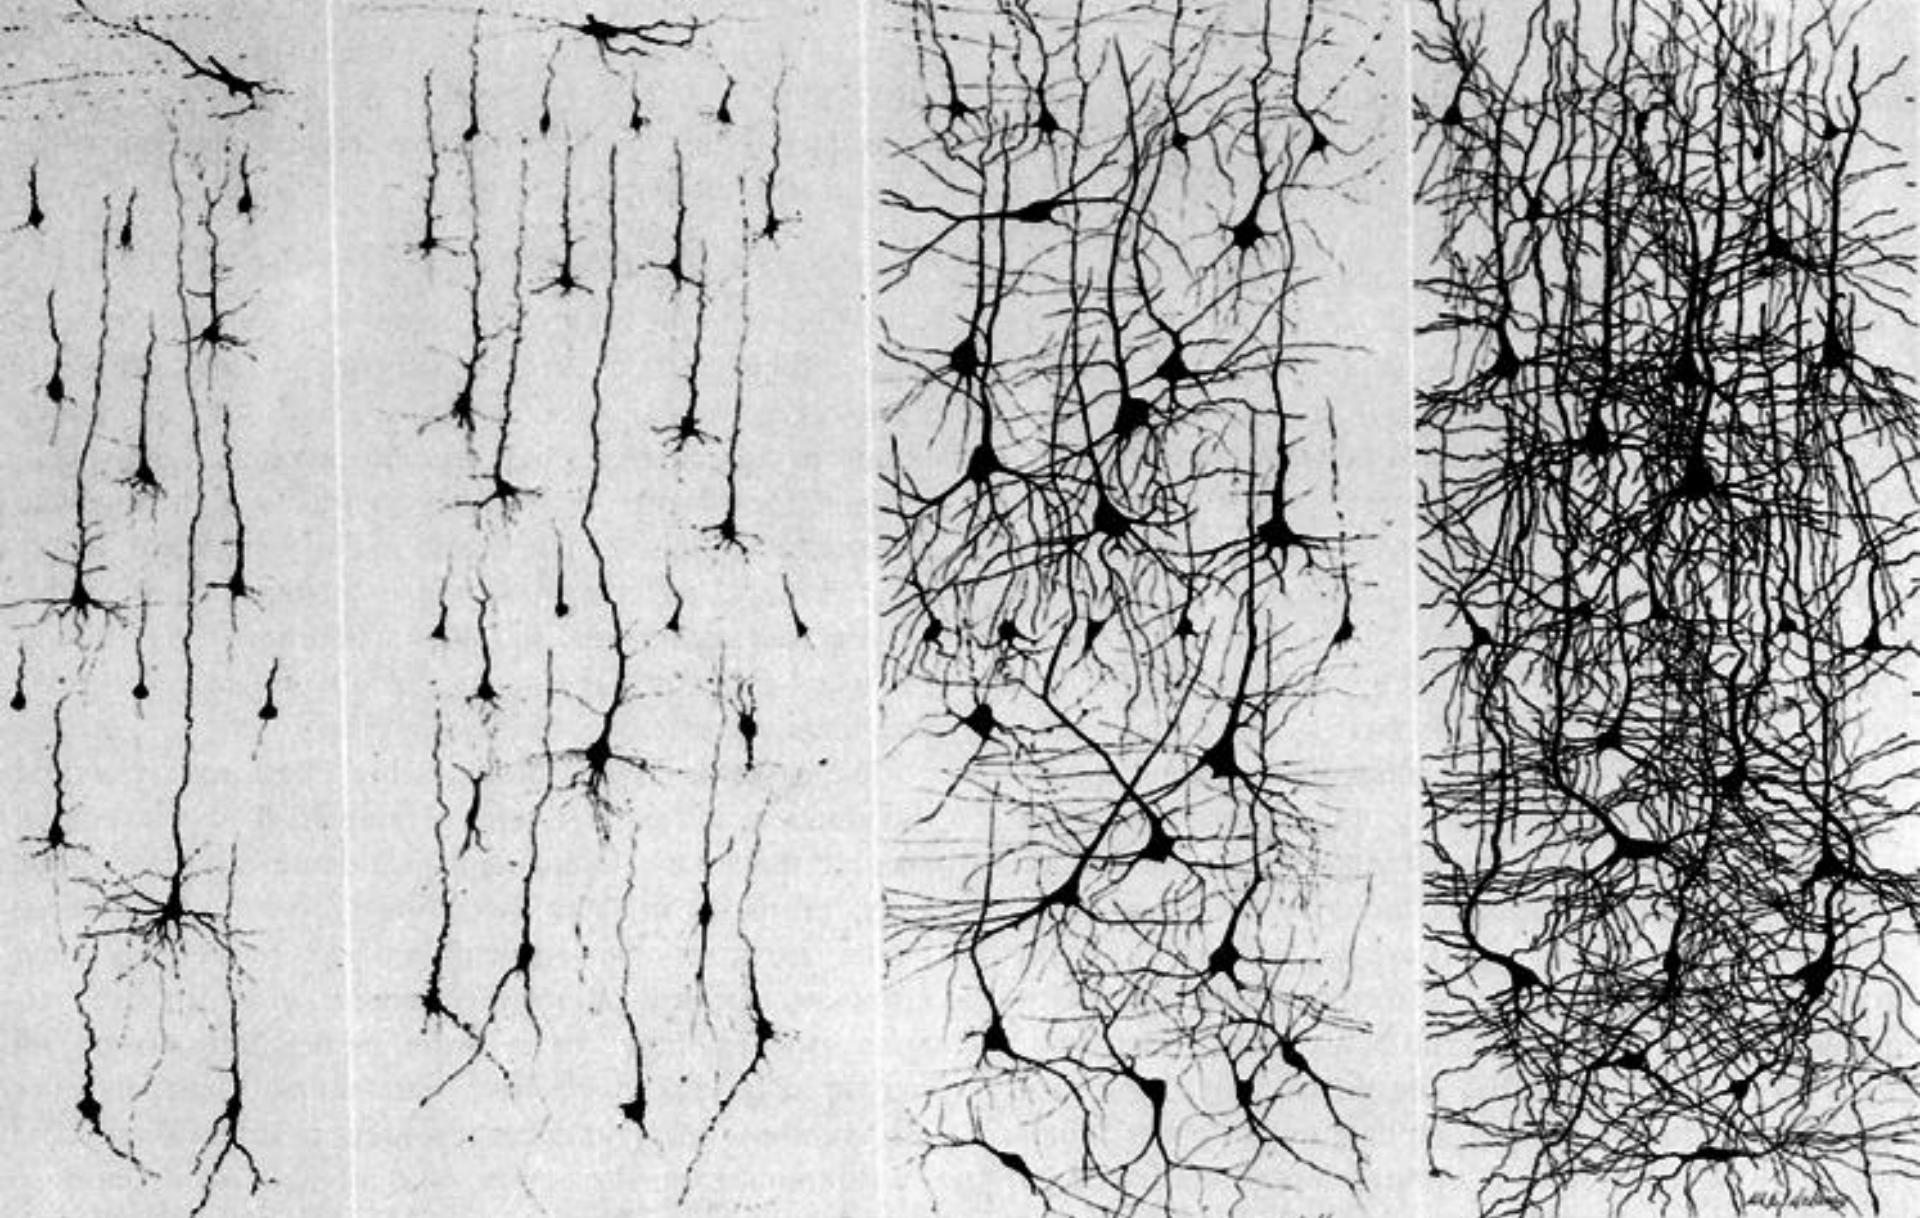

... through deployment and interaction?

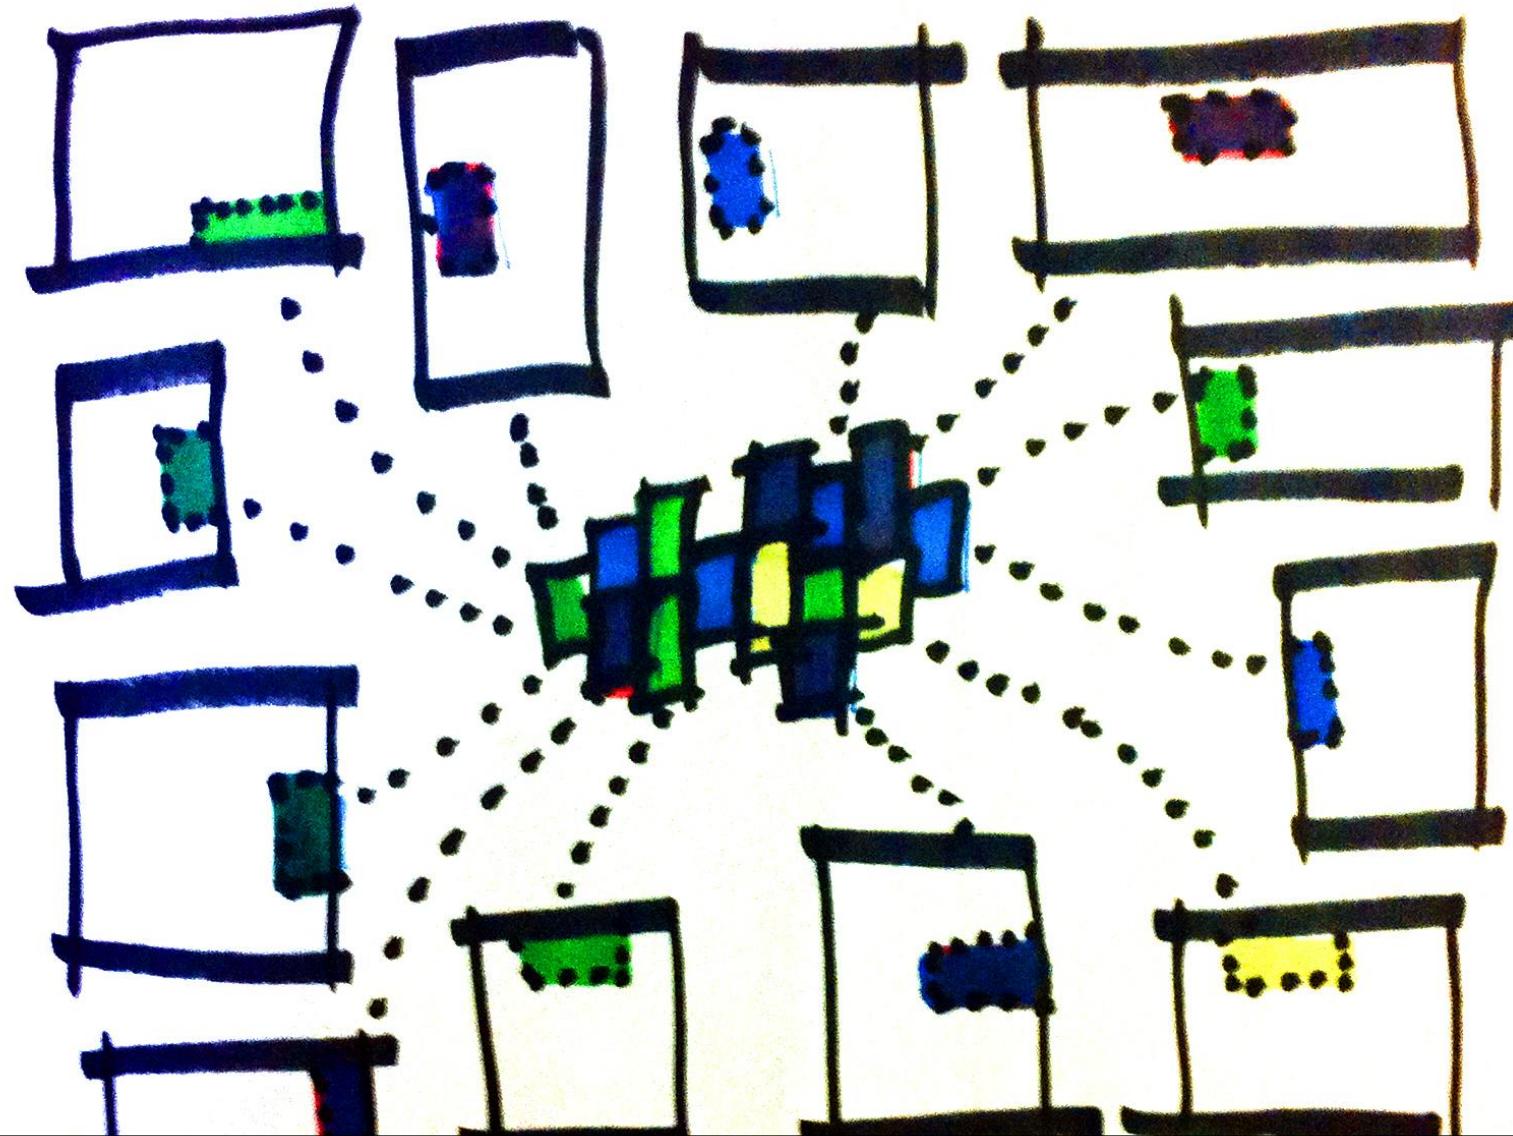

can we design a growing, evolving system?

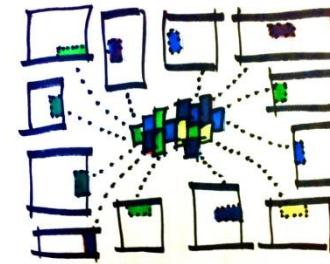

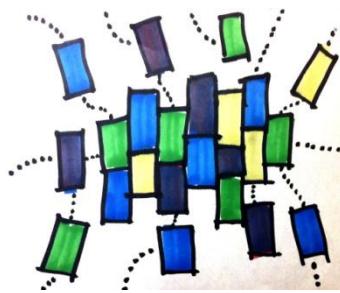

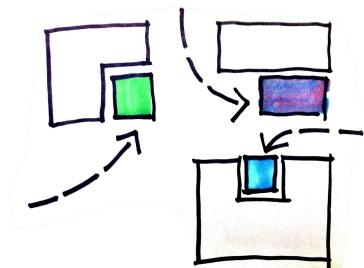

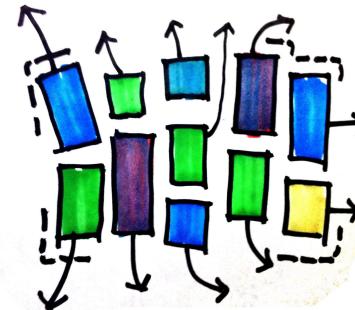

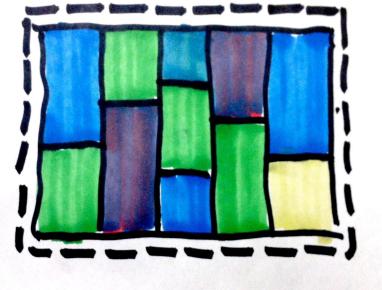

collaboration is an organic system

can we prototype “reinvent business” ?
